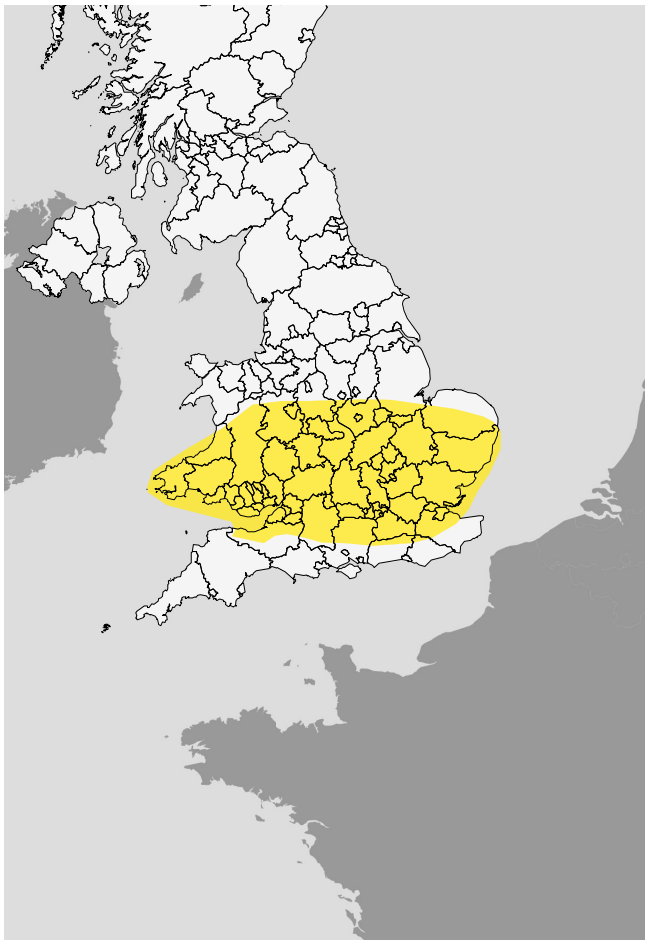
Yellow warning
Snow & Ice

Between
21:00 Mon 6 Mar 2023 and
10:00 Tue 7 Mar 2023



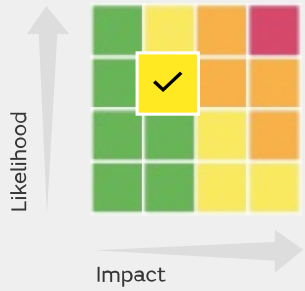
Ice and some snow leading to difficult travel conditions in places.

What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

A band of rain will edge southwards through the course of Monday evening and early Tuesday, this rain turning to snow on hills and perhaps to lower levels in places. Many areas will see little or no accumulations of snow, but 1 to 2 cm could settle in some spots, most likely over high ground and southern parts of the warning area. The rain and snow is then expected to turn light and patchy as it slowly clears southern England on Tuesday. As skies clear overnight, ice is also likely to form readily on untreated surfaces.



Medium likelihood of low impacts

Issued at 09:59 Mon 6 Mar, 2023
